Sprint Three Plan - Slug Stock - Team Slug Stock

Sprint Two Completion Date: March 4, 2016
Revision Number: #1
Revision Date: February 15, 2016

Sprint Three Goal: Finish last of the functionality, optimize and make it look nice.

User Story 1: I as a user want the site to flow well (css/js)
   Tasks:
   - Set up the charts to receive info from database (javascript)(Time Estimate 3hrs)
   - Make a written outline of each page and where everything will be located (Time Estimate: 1 hrs)
   - Do the CSS required to do what we outlined(Time Estimate: 6 hrs)
   - Total time: 10 hrs

User Story 2: I as a user want to be able to attach notes to a stock.
   Tasks:
   - Create a text field for each stock on the profile page where you can place notes (30 min)
   - Save user notes into the the notes json field in user table, and load that information into the text field when someone loads profile page. (1 hr)
   - Total time: 1.5 hrs

User Story 3: I as a user want to receive text message notifications when a stock hits a specified price.
   Tasks:
   - Add a function to send a text to the user's phone number.(Time Estimate: 4 hrs)
   - Automatically format the text with information from the database (Time Estimate: 2 hrs)
   - Total time: 6 hrs

User Story 4: I as a user want to see how much money I've made or lost on a given stock and total each day.

      Tasks:

- Allow users to store in database how much of a stock they own. (Time Estimate: 1 hrs)
- Add a net worth change calculation for a full day to the daily email function. (Time Estimate: 2 hrs)
- Display a user's net worth on their profile page. (Time Estimate: 1 hrs)
- Total time: 4 hrs

Team Roles:

Dustin Bryan (Product Owner):

Creating charts/css/page design guy

James Brower

Sending emergency text messages guy

Aramis Marden:

Note implementor guy
